Check Security Features

Here at Creative Document Solutions we take check security seriously. Security features help protect your financial accounts from counterfeiting and fraud. Our high-level security features and papers adhere to the latest ANSI standards (Check 21 Compliant) for image readiness.

On-Paper Security Features

V-DOT TECHNOLOGY: Trigger the anti-copy chip in most color copies. When the chip is activated the copy becomes unusable.

PIGMENT BASED INK: Printed areas will NOT wash away when chemical alteration attempts are made.

FRONT PADLOCK ICON: This symbol signifies compliance with industry standards. The color of the image undergoes noticeable changes depending on the angle of view or the direction of light illuminating it.

WARNING BAND BORDER: Protects document issuer by informing recipients of security features that authenticate and verify the check.

MICROPRINT BORDER: Printing so fine and small that it appears as a solid line to the naked eye but is readable under magnification.

BACK PADLOCK ICON: This symbol signifies compliance with industry standards. The color of the image undergoes noticeable changes depending on the angle of view or the direction of light illuminating it.

HOLOGRAPHIC FOIL: Provides a boldly reflective holographic image that varies in color and apparent depth with changes in viewing direction. Cannot be duplicated by inks, copiers, or scanners.

TRUE MICROPRINT ENDORSEMENT LINE: Printing so fine and small that it appears as a solid line to the naked eye but is readable under magnification.

WARNING BOX: This box lists each security feature with a description, so the issuer and recipient are aware of the security feature.

ORIGINAL DOCUMENT SECURITY BACKGROUND: Disappears when photocopied.

VOID PANTOGRAPH: Shows when copied; a special printing technique that exposes the word VOID when the original document is scanned or photocopied.

HEAT SENSITIVE ICON: Thermochromic ink that reacts to heat, making it easier to spot as an authentic check.

CHEMICAL WASH WARNING BOX: Warning box calls attention to the color of the check paper.

DIAGONAL DIMENSIONAL BACKER: Different spacing of a diagonal line used in the design of a check backer to deter altering by cut and paste method.

MICROPRINTING BELOW ENDORSEMENT AREA LINE: When copied the wording is not readable.

SCREENED CHECK BACK: Deters duplication. Screen does not reproduce when copied.

CHECK SECURITY WATERMARK: When held at an angle, words "Original Document" appear.

MOBILE CHECK BACKER: Check box on back if check has been deposited on mobile app.

DIGITAL VERIFICATION GRID: The verification grid appears on the original and disappears when photocopied.

SECURITY FEATURE	Standard	Custom	High Security	Hologram Secure
V-Dot Technology				
Digital Verification Grid				
Pigment Based Ink				
Heat Sensitive Icon				
Void Pantograph *				
Security Warning Band Border				
Padlock Icon Front & Back

Check Security Watermark				
Toner Adhesion				
Visible Embedded Fibers				
Diagonal Dimensional Backer				
Please note: All Product Lines are printed with Security Paper. *Void Pantograph – Dependent on Pantograph & Color Chosen **Only on certain Holographic Stock Paper				

In-Paper Security Features

TONER ADHESION: An exclusive coating that securely bonds toner to paper making it nearly impossible to remove without causing visible damage.

FLUORESCENT FIBERS: Random fibers of various lengths and colors that are visible on both sides of the paper, which complicate copying.

INVISIBLE FIBERS/ UV DULL PAPER: Low-reflective surface that enhances covert UV security features when viewed with a black (UV) light. Helps detect non-dull counterfeits.

CHEMICAL REACTIVITY: Comprehensive protection against chemical alteration. Reactants change color when exposed to solvents, oxidants (bleach), acids and alkalis.

WATERMARK: A subtly visible image that is part of the paper's internal structure. True in-paper watermarks are virtually impossible to reproduce.

TRUE FOURDRINIER WATERMARK: A faint design pressed into the paper. When held to the light, these watermarks are easily visible from either side of the paper. Copiers or scanners are not capable of replicating a True Fourdrinier Watermark.

Security Deposit Bags

Choose the style or size that fits the needs of your business. Reduce banking time with these clear or opaque recyclable film bags with highly tamper-evident closures. The bar code, sequential numbering and tear-off receipt provide a transaction audit trail. All bags meet or exceed Federal Reserve Bank requirements for security. All bags are made out of #4 plastic and can be recycled.

OPAQUE SINGLE-POCKET DEPOSIT BAG

Item: **53848**

Size: **9" x 12"**

Make deposits after-hours, and protect deposits from theft with these heavy-duty bags that meet all Federal Reserve guidelines. Opaque, single-pocket has orange tamper-evident seal that provides the highest degree of protection.

CLEAR SINGLE-POCKET DEPOSIT BAG

Item: **53849**

Size: **9" x 12"**

Clear bag with same features as Item 53848 (shown at left).

CLEAR SINGLE-POCKET DEPOSIT BAG

Item: **53853**

Size: **10" x 15"**

Feel secure that your money is safe. Heavy-duty construction meets all Federal Reserve guidelines. Orange, tamper-evident seal provides the highest degree of protection.

DUAL-POCKET DEPOSIT BAG with OPAQUE BACK

Item: **53858**

Size: **9.5" x 15"**

Easy-to-use, top-over-bottom pockets separate cash from checks. Clear front lets bank see what is inside while the opaque blue back helps keep contents out of view while in transport to the bank. Orange, tamper-evident seal provides the highest degree of protection.

HORIZONTAL DUAL-POCKET DEPOSIT BAG

Item: **53859**

Size: **13" x 10.5"**

Side-by-side pockets separate cash from checks. Orange, tamper-evident seal provides the highest degree of protection.

SMALL COIN BAG

Item: **53862**

Size: **10" x 17.5"**

Transport high-volume coin deposits securely with these heavy-duty bags. Triple-strength, sturdy plastic handles provide strong support and easy carrying. Holds up to \$500 in quarters.
